FROM : Field Manager
DATE : 15 May 1997 REF. # : 15.05.97 mdf-akl camp complete

This fax consists of (1) pages. Please contact 00-873-761-274-633 in the event of poor transmission.

SUBJECT: Camp construction

This fax is for the purposes of determining potential bonus payments.

Please be advised that as of 13th May 1997 the Camp at Nebit Dag is considered fit for occupancy with two exceptions.

1. The water filtration system is not operational.
2. We have been unable to properly commission the camp due to the unavailability of electricity and water.

The quality of the work has been carried out to our satisfaction. Tilden and their contractors have been very responsive to our needs. We will require break in period to ensure that all remains good, and I understand that a small number of Tilden's contractors will do this.

I would like to commend PCIP(Tilden's primary contractor) on the quality and diligence of their work during camp construction. The entire organization worked in a very professional and expediant fashion.

Best regards,

Mike Fertitta
