

From the British Ambassador

**British Embassy  
Ashgabat**

To whom it may concern

This is to confirm that Pomposh Constructions India Private Limited undertook the complete internal repainting of this Embassy. The work was completed in a thorough workmanlike manner, with the minimum of disruption to the work of the Embassy, and with a close and helpful attention to the needs of the staff. I was particularly impressed at the protection of the existing furnishings from paint damage during the works. I am more than satisfied with the standard of work and pleased with the results.
