TO WHOM IT MAY CONCERN

We have had the pleasure of working with Pamposh Caribbean Ltd for over 18 months. During this time, they have consistently been a professional contractor who has worked hard to make our project a success. They were able to mobilize hundreds of Indian operatives in a reasonably quick manner to a remote Caribbean island. They managed these operatives in a highly professional fashion. As a labor-only contractor their success was greatly influenced by the availability of material, equipment and direction by the general contractor.

During our association, we had the opportunity to meet others of their world-wide clientele who all had a similar positive evaluation of Pamposh. We were able to observe their operations both in the Caribbean and the Middle East and found their ability to manage and care for the operatives they mobilize to be first class. The labor camps we observed were excellent. This was independently verified for our project by the Indian High Commissioner for the Caribbean who viewed the camp Pamposh was running for us as the finest they had ever seen for Indian labor.

I would recommend Pamposh Caribbean Ltd without reservation and recommend them to you highly.

Sincerely,

Randy Printz
Sr. Vice President, Design & Engineering
