

CERTIFICATION

TO WHOM SOEVER IT MAY CONCERN

- This is to confirm that M/s Pamposh Constructions India Pvt. Ltd., has been working uninterruptedly with Bouygues Batiment International at Ashgabat, Turkmenistan, since May 1994 and we plan to continue our association on future projects.
- Pamposh has been working under Bouygues Banner for execution of Structural Concrete Works (viz. Formwork, Reinforcement Steel and Concreting), Finishing works (Block masonry, Plaster, Tiling, Stone, Wood, Dry partition, Marble, Painting, Screeding etc.) and other Civil Works (viz. Path ways, VRD etc.)
- Pamposh has also provided a contingent of operatives viz. Mechanics, Auto Electrician, Electro Mechanics, Storekeeper, Time Keeper, Operators for Tower Cranes, Mobile Cranes, JCB, Batching Plant etc. for our mechanical workshop.
- Pamposh has associated on **32 different projects** (list enclosed) and we are happy with the services and quality they provide. They do work on a fixed cost basis which also attract us.
- We have found them a well organized professional company having highly, motivated workforce including Supervisors, Engineers and other Administrative staff who are conscious of time and quality. The accommodation camps have been maintained in excellent state and do operate the catering facilities for both Indian and Expatriate staff to our satisfaction.
- They are fully conversant with the logistics and are highly proficient to mobilize and manage hundreds of Indian operatives in a reasonably short time span.
- We strongly recommend that hiring of Pamposh to any multinational organization for its labour solution and further state that their interaction / knowledge of works give considerable savings for deployment of total strength and to the strength directly employed by Main contractor besides advantage of timely completion / good quality.
