TO WHOM IT MAY CONCERN

We confirm that since September 2004, M/s Pamposh Constructions India Pvt. Ltd. (registered at 15, L.S.C, Pushpa Bhawan, Pushpa Vihar, New Delhi, India) has been employed by Khansaheb to undertake structural concrete, block work, plastering, tiling, marble/granite installation works on a number of our commercial and residential contracts as noted on the attached schedule.

We have found them to be a well organized, professional company managed by a team including a Country Manager, Project Managers and Site Engineers who are conversant with the latest construction methods (particularly in regard to high rise buildings) and have provided a motivated work force that has co-ordinated well with our own works.

On this basis, we plan to continue our association with Pamposh on future projects.

For Khansaheb Civil Engineering L.L.C.

R. C. Browne 18 December 2009

Richard Browne
